Hi Rich: our final permits won't be issued until next month (on/after 9/11/20) due to some higher level conversations that need to take place including with the NRC and the Oglalla Sioux.

Cheers,

douglas

<image00001.png> Dewey Burdock Press Release August 2019 Final.docx

---

Hi Rich: as heads up, we are planning to issue our final permits and aquifer exemption decisions on Dewey Burdock as early as Monday, August 24<sup>th</sup> although it could be until early September until we are ready.

Attached is the Comm Strat and press release for last August's permit-reissuance for additional public comment.

The CS can be updated for these pending decisions consistent with responses to comments which are still being finalized. Please let me know if you support doing so. Also, we would be happy to work with you/your team on press release language and any other forms of external communication.

We do expect an appeal to the EAB from one or more parties and possible federal court litigation.

Thanks,

Douglas
